Commissioner Andrew Fay,

Docket No. 20220001-EI

I am an electricity customer in Florida. I received notification that you will soon be considering proposals from Florida Power & Light, Duke and Tampa Electric to increase electricity rates next year.

This is insane. These companies have made windfall profits over the last few years, and yet with each request, you have approved their rate increases. No amount is too high, apparently. When will the Public Service Commission follow its mission of setting fair and reasonable rates for consumers in Florida?

Another electricity rate increase is the last thing the state of Florida needs, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic or natural disasters. We are all inundated with price increases on everything.

I urge you to reject these rate increases.

DJ Tanguay, Pinellas County Florida

Commissioner Andrew Fay,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

I urge you to reject these outrageous rate increases at this time.
