**Subject:** Docket No. 20220001-EI: No new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am writing as a concerned Florida resident and a electricity customer. I received notification that FPL, Duke and Tampa Electric intend to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to recover financially from the pandemic. We are all inundated with price increases on everything.

My husband and I moved here from Indiana to retire and we are amazed at how much higher food prices are. Now we are hearing about power increases on top of that. Florida is a popular retirement place for seniors. Many of us need the heat for health reasons. How do

you expect seniors who have limited income and various non covered Medicare health costs to survive?

IF you decide to increase rates please consider exempting those 65 and over.

I urge you to reject these outrageous rate increases at this time.

Sincerely,

Marianne and Dave Eagan
