**COMPLAINT INFORMATION**

Complaint: Other Complaints against Florida Power & Light Company

**Details:**

On the eve of the January 24th Hearing on the proposed FPL Rate Increase, I protest against anymore FPL Rate Hikes when the Next Era Energy (NEE) stock is up over 30% in last 3 years and 2,900% since I graduated H.S. in 1985. While Florida's Population has increased, that should just mean more people to pay with less housing available. Where are all the new homes to go along with all this new population? There is a shortage of affordable housing in Florida. So, it doesn't add up for rate hike. Hurricanes should be accounted for in FPL's budget and is something that the State of Florida should help with if they weren't so drunk on the State Budget Surplus of money Gov. DeSantis said he is proud of. So, let Gov. DeSantis swallow his pride and help Floridians with Utility Hurricane Price Gouging.
