Subject: The rate hike in Florida for electricity

I am not happy about the constant rate hikes on our electricity in Florida. Why should I have to pay for solar power and a stronger infrastructure and the storms. I don't think it's fair of us to make up for the cost. I lived in Georgia and my bill was never this high. I just wanted to endorse that I think this rate hike is unnecessary and will hurt a lot of people. Mainly the poor and elderly thank God I'll still have food.
