RE: FPSC Inquiry 1414426C

Dear Ms. Redden:

The Governor's office forwarded a copy of your email regarding Duke Energy Florida (DEF) and Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

You expressed concern about DEF's petition for a mid-course correction in its fuel charges. Mid-course corrections are used by the Commission between annual fuel clause hearings whenever costs deviate from revenue by a significant margin. Cost recovery factors are usually effective for a period of 12 months. However, we require that if an investor-owned electric company's fuel or capacity cost recovery position is projected to exceed a specified range within the standard 12-month timeframe, then a filing and analysis into the continued reasonableness of the prevailing cost recovery factors must be performed. This requirement is codified by Rule 25- 6.0424, Florida Administrative Code (F.A.C.), and is commonly referred to as the "mid-course correction rule."

(Over or under collection is a credit or debit to the amount to be collected the next period (year). The total fuel factor may go up or down regardless of whether there was an over or under collection in the prior period.)

Thank you for your comments. They will be added to the correspondence filed in the Fuel Cost Recovery Clause Docket No. 20230001-EI. If you have any questions or concerns please contact Ellen Plendl at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Shonna McCray
