**Subject:** duke energy

my bill in december more than doubled from 211.42 to 462.33 and now they are informing us that they will go up another 20% in april.  
we live on a fixed income and will not be able to afford to keep our electric on in any form if this continues. we do not have a choice of electric companies to go with. This commision needs to stop these companies from doubling their prices. People do not make enough money to survive with the cost of living going up. prices of food gas and utilities going up. we did not get enough of an increase from social security to match these increases. How can you support these increases? Pays in florida are not going up enough to help us survive. I have to work to make ends meet. Now I will have to find a 2nd job just to pay electric bills. I am 65 and don't need this added stress to worry about paying my bills.

DO NOT ALLOW THIS TO HAPPEN.

THANK YOU

Lori Levesque
