Subject: FW: Please review and advise

Because, she mentions storm cost recovery, this can be added to docket 20230017.
I am working on a letter.

Subject: Your corrupt commission

I just talked to Dan who took down my info, etc. Not only have you allowed 2 big increases for FL (you also gave them 2 rates increases in 2022) but now a 3rd based on hurricane Ian starting this coming April? I have lived here in FL most of my life, 52 years. I am a retired FL teacher (Broward County School System) on a very limited budget. You use to support us FL residents and especially kept a lid on the electric power companies, especially FPL. In recent years you are allowing them to get what they want, no questions asked. So, you have also become Corrupt! Even after hurricane Andrew, which I went through, you didn't allow FPL to get away with increases. FPL is very profitable because you could care less about restraining them. Just what are you doing to keep their rate increases from happening??? Where is your "protection" for us Floridians? Even 10 yrs ago, you were doing your job! You need to STEP UP NOW and STOP YOUR CORRUPTION. Most of us are on limited fixed incomes and even those working don't earn enough to afford these rate increases. Go after the wealthy, not us peons. TOTALLY SHAMEFUL.
