#### COMPLAINT INFORMATION

Complaint: Delay in Service against Florida Power & Light Company

#### Details:

With three rate increases already lined up for the near future, FPL is asking for a fuel rate increase, which PSC will more than likely rubber stamp as it has done in the past. When will this stop? My wife and I are senior citizens on fixed incomes, we have nowhere to go to ask for income increases to offset utility bills. Inflation has bitten deeply into our budgets making bill paying even more difficult.

These FPL increases are scheduled for the cooler months when not as noticeable on bills, but come summer, when continued hot days arrive our bills will put us as many other customer in a serious bind.

When will the approval of these rate increases stop?
