COMPLAINT INFORMATION

Complaint: Other Complaints against Florida Power & Light Company

Details:

I am deeply disturbed that Governor Ron DeSantis would stand for a rate hike that impacts the people of Florida in such a profoundly negative way. FPL is making profits and that's great, but it's at the expense of all of us who are working hard to deal with inflation, hurricane damage and the reality that our wages are not keeping pace. Every time there are rate increases, FPL still reports 11.6% ROE and that outpaces inflation. We are bearing the brunt of FEMA relief let downs, insurance companies not covering full replacement values and WE THE PEOPLE are footing the increased costs of power with money from our food budgets. The rate hikes are wrong and sends the wrong message to already beaten down Floridians.
