RE: FPSC Inquiry 1415411C

Dear Mr. English:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

We appreciate you sharing your views and will add your correspondence to the following dockets:

* Docket No 20230017 regarding FPL's petition for limited proceeding for recovery of incremental storm restoration costs related to Hurricanes Ian and Nicole, by Florida.

* Docket 20230001 regarding FPL's middle course correction for fuel and purchased power cost recovery clause with generating performance incentive factor.

You may review all the information filed for Commission consideration in the above dockets by accessing the FPSC website at <http://www.floridapsc.com>. Under the Clerk's Office tab at the top of the page, click on Dockets. Type in each docket number. Click the Search button. Then select Document Filings Index for a list of all filings in the docket. This procedure allows you to view all of the information filed by each utility and other parties in the docket.

If you have any questions or concerns please contact me at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Ellen Plendl

4. **Subject**
FPL and rate hikes

5. **Message**

What if any actions have you taken to keep FPL from attaining rate hikes beyond what might be necessary while verifying the veracity of their claims for the increases? Also, if a monopoly uses government to force the citizens to use its services, shouldn't that monopoly, at least, have oversight into how that monopoly uses its funds. I'm absolutely no fan of socialism but I am no fan of monopolies either. Other utility monopolies should be treated the same way. If the state of Florida is going to allow this monopoly to continue, which again I disagree with, then oversight of FPL should absolutely be on the table, as well as complete transparency to the public, curbing exorbitant "clean energy" spending, and much more reasonable executive pay limits, just for starters. Many that I talk to believe you are taking "donations" from FPL as a bribe to look the other way on the rate increases, I hope they're wrong.
