RE: FPSC Inquiry 1417653C

Dear Mr. Asher:

This is in response to your inquiry with the Florida Public Service Commission (PSC) regarding Florida Power & Light (FPL). We appreciate the opportunity to respond directly to you.

You expressed a concern about recent rate increases. On March 7, 2023, the FPSC approved a mid-course correction to the fuel factors and granted preliminary interim storm restoration charge for FPL.

The adjusted fuel factors reflect unrecovered fuel costs incurred in 2022. The interim storm restoration recovery charges are costs associated with named storms and will replenish each utility's storm reserve fund. Interim storm restoration charges are approved for a 12-month recovery period and are subject to refund, with interest, pending further review once the total actual costs are known for each utility.

FPL's approved charges include the new fuel factor and the preliminary approval for recovery of \$1.5 billion in interim storm restoration costs for Hurricanes Ian and Nicole, as well as the remaining costs from Hurricanes Michael, Sally, and Zeta.

We appreciate you sharing your views and will add your correspondence to both Dockets 20230001 and 20230017 regarding the mid-course correction and the storm restoration recovery, respectively.

If you have any questions or concerns please contact Ms. Ellen Plendl at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Shonna McCray
Regulatory Program Administrator

How can you obviously not to bright, people justify another FPL increase. Hurricane cost. Jesus my bill has gone up \$60 a month and is goin to go up again. Whatever happened to the cost of doing business? Let them suck it up and quit gouging us. Or is there something benefitting you?
