COMPLAINT INFORMATION

Complaint: Other Complaints against Florida Power & Light Company
Details:

I do not accept increased costs of FPL for changes in natural gas pricing in 2022. No responsible company would ever enter into a contract with a service provider like that without annual pricing guarantees and a multi-year maximum increase provision. I understand Ukraine needs natural gas and I support that. But Ukraine should pay the increased cost, not Floridians. It is inexcusable that FPL did not have contract pricing locked in for the entire year of 2022. It is also inexcusable that whoever the natural gas supplier has had ANY profits last year. I want to know who the gas supplier is so I can verify whether or not they had corporate profits that should be returned to FPL customers. No reputable corporation would enter into a contract with their major supplier without pricing guarantees, and I want to know if the commission has had a conversation with FPL about learning basic accounting and contracting principles.
