Re: Docket No. 20220203-WS - Application for amendment of Certificate Nos. 552-W and 481-S in Marion County, by C.F.A.T. H2O, Inc.

Dear Ms. Clark:

Staff has reviewed C.F.A.T. H2O, Inc.'s (CFAT or Utility) application for amendment of Certificate Nos. 552-W and 481-S in Marion County, as amended by the Utility's January 17, 2023 letter. After reviewing this information we find the application to be deficient. The specific deficiencies are identified as:

1. **Detailed System Map.** Rule 25-30.036(2)(g), F.A.C., requires the applicant provide detailed system maps showing the proposed lines and treatment facilities, with the territory proposed to be served plotted thereon, consistent with the legal description required by Rule 25-30.036(2)(f), F.A.C. If the territory to be served is adjacent to the utility's existing territory, provide a complete map showing both existing and expanded territories. The map shall be of sufficient scale and detail to enable correlation with the description of the territory. Additionally, Rule 25-30.036(4)(f), F.A.C., requires the utility provide detailed system maps with the territory to be deleted and retained, showing existing plant in the retained area. Please provide the water and wastewater system maps.
2. **Line and Treatment Facility Capacity.** Rule 25-30.036(2)(i), F.A.C., requires a statement of the capacity of existing lines and treatment facilities and the design capacity of the proposed extension. Since the proposed extension is already being served by the Utility, please provide a statement of the existing line and treatment facilities for the water and wastewater systems.

Susan Clark, Esq.
