Good Morning, Aron Wenig.

We will be placing your comments below in consumer correspondence in Docket No. 20220185, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Docket No. 20220185-WS

Enough!

Well no complaints about service and talking with them on the phone. Now here is the problem, according to the statute they can raise the water 20 percent within the allotted time. I feel that we are paying too much for water now. It used to be in the base rate a certain amount of water was included with that rate but now it's a base rate with no water use at all so that was an increase. Now they want to increase the base rate and the water use rate. For people on fixed incomes it is hard enough for what we are all going through with the rise of everything. It has to stop.

To the county commissioners, if you can please try to stop this raise in our water bill. It is getting very difficult to live. Water is enough is enough.

Thank you for your consideration and reading what I had to say.
