Docket No. 20220185-WS, Sunrise Water, LLC

I do not feel they deserve the right to raise our rates again. I understand the prices of everything are going up, but they still have not addressed issues from before the last increase.

I personally have a meter with a "protective" box that has been broken for over 10 years. I have requested that they fix it 4 times. After that I gave up, if they wouldn't handle the responsibility with me asking multiple times, they weren't going to handle it.

I would have no problem with an increase if they would handle their responsibilities. If they can't manage their finances and take care of issues waiting to be addressed for 10+ years, then maybe they need to sell to someone who can.

Even though I feel this has probably been a waste of time, I thank you in advance for at least reading my thoughts.
