**Subject:** Comments per proposed rate increase WLWW

12 June 2023

As it will appear to become increasingly more frequently necessary for the utility (WLWW) to submit request for rate increases, this writer will hereby offer for reasonable consideration a grace period of 5-7 days be granted monthly with request for payment.

This individual is certain it can be understood most services recipients of the utility (WLWW) are living month to month on a limited fixed income. And/or have experienced a reduction, if not a complete loss, of income.

Your kind attention and consideration is appreciated. Thank you.

Michael Monahan
