Staff requests approval for an oral modification to Docket No. 20230043-EI – Petition for approval of revised underground residential distribution tariffs, by Duke Energy Florida, LLC. This item is currently scheduled for the August 1, 2023 Commission Conference.

The recommendation was filed with the issue statement for Issue 2 duplicating the issue statement for Issue 1. The issue statement for Issue 2 should instead read: “Should this docket be closed?” Staff requests permission to replace the issue statement for Issue 2 to reflect the correct wording.

The requested change does not alter staff’s recommendation.

~~Issue 2: Should the Commission approve DEF's proposed underground distribution tariffs and associated charges. Should this docket be closed?~~

Recommendation: If Issue 1 is approved and a protest is filed within 21 days of the issuance of the order, the tariffs should remain in effect, with any revenues held subject to refund, pending resolution of the protest. If no timely protest is filed, this docket should be closed upon the issuance of a consummating order. (Watrous)

Staff Analysis: If Issue 1 is approved and a protest is filed within 21 days of the issuance of the order, the tariffs should remain in effect, with any revenues held subject to refund, pending resolution of the protest. If no timely protest is filed, this docket should be closed upon the issuance of a consummating order.
