Subject: FPL price hikes

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

How do you expect us to keep paying higher electric bills? We literally cut our hot tub and mini fridge off and still our bill is higher... How? Most people on social media are really struggling, us included. How long do you think you can continue an increase and expect us to pay? If no one can afford electric then what happens to your business? We the people can't afford basic essentials with everything going up and not getting paid a living wage. How does your organization plan to combat this? Increased priced is not it.
