RE: FPSC Inquiry 1426122C

Dear Ms. Salimbene:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

You expressed a concern about recent rate increases. On March 7, 2023, the FPSC approved a mid-course correction to the fuel factors and granted preliminary interim storm restoration charge for FPL.

Utilities do not earn a profit on fuel charges. The fuel and capacity cost component of customers' bills is set for each calendar year, but mid-course corrections are used when a utility's costs increase or decrease significantly in the interim. Under Commission rules, a utility must notify the PSC when it expects an under- or over-recovery greater than 10 percent.

The adjusted fuel factors reflect unrecovered fuel costs incurred in 2022. The interim storm restoration recovery charges are costs associated with named storms and will replenish each utility's storm reserve fund. Interim storm restoration charges are approved for a 12-month recovery period and are subject to refund, with interest, pending further review once the total actual costs are known for each utility.

FPL's approved charges include the new fuel factor and the preliminary approval for recovery of \$1.5 billion in interim storm restoration costs for Hurricanes Ian and Nicole, as well as the remaining costs from Hurricanes Michael, Sally, and Zeta.

We appreciate you sharing your views and will add your correspondence to both Dockets 20230001 and 20230017 regarding the mid-course correction and the storm restoration recovery, respectively.

If you have any questions or concerns please contact me at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Ellen Plendl

RE: FPSC Inquiry 1426106C

Dear Ms. Frazee:

The Governor's office forwarded a copy of your email regarding Florida Power & Light Company (FPL) to the Florida Public Service Commission (FPSC). The FPSC regulates investor-owned electric, and natural gas utilities throughout the state, and investor-owned water and wastewater utilities in those counties which have opted to transfer jurisdiction to the FPSC. The FPSC has authority in the telephone industry which is limited to the Lifeline Assistance Program, Florida Relay Service, and pay telephone service. We appreciate the opportunity to respond directly to you.

You expressed a concern about recent rate increases. On March 7, 2023, the FPSC approved a mid-course correction to the fuel factors and granted preliminary interim storm restoration charge for FPL.

Utilities do not earn a profit on fuel charges. The fuel and capacity cost component of customers' bills is set for each calendar year, but mid-course corrections are used when a utility's costs increase or decrease significantly in the interim. Under Commission rules, a utility must notify the PSC when it expects an under- or over-recovery greater than 10 percent.

The adjusted fuel factors reflect unrecovered fuel costs incurred in 2022. The interim storm restoration recovery charges are costs associated with named storms and will replenish each utility's storm reserve fund. Interim storm restoration charges are approved for a 12-month recovery period and are subject to refund, with interest, pending further review once the total actual costs are known for each utility.

FPL's approved charges include the new fuel factor and the preliminary approval for recovery of \$1.5 billion in interim storm restoration costs for Hurricanes Ian and Nicole, as well as the remaining costs from Hurricanes Michael, Sally, and Zeta.

We appreciate you sharing your views and will add your correspondence to both Dockets 20230001 and 20230017 regarding the mid-course correction and the storm restoration recovery, respectively.

You also expressed concern about FPL as a monopoly in Florida. Florida is not a deregulated state. The Florida Public Service Commission cannot deregulate the electric industry. It would be up to the Florida Legislature to make changes in the Florida Statutes to deregulate the electric industry.

If you have any questions or concerns please contact me at 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Ellen Plendl

Hi,

I know you're more focused on the election but can you please stand up and do something about FPL. Your residents, voters, and tax payers are having to decide between air conditioning and groceries. FPL was allowed to increase prices to cover a cost they should already have accounted for as a business. Then they claimed publicly they were saving everyone money yet the rate went from 0.07 per kw to 0.11 per kw or more depending on location. In addition to this they consistently have power surges ruining appliances in households but blame the clients rather than their service. The state needs oversight into this company or we need another energy company alternative. No monopoly should be allowed. Thank you
