Subject: DUKE'S charges

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

The commission has approved rate increases for Duke. I would appreciate a true response, not an insulting form reply. Why DUKE'S charges are 50% higher than Florida Power;?

I was under the false impression that your commission was supposed to protect the public's interests, not the corporations that provide 30% raises to their executives. I receive energy services from Duke, but I have high "fuel" charges, customer charge?, asset securitization charge; how can I get them removed, and stick to the ENERGY charges. PLEASE reply and tell me where I am wrong.

Respectfully
Pepe L. Gaibor
