

3. **Staff:** Response 7 states that FKEC plans to recover its cost to extend service to Pigeon Key through its electric service charges. Please explain if FKEC will be recovering the cost from its general body of ratepayers or from the Foundation or by another mechanism.

Response: FKEC did not request any cost payback from the Foundation. FKEC will “recover costs” by the ongoing monthly bill under FKEC’s standard general service demand rate (as filed with the PSC) just like every other GSD member.

4. **Staff:** What is the average monthly electric bill cost of the Foundation pursuant to FKEC’s General Service Demand (GSD) rate schedule?

Response: \$1,444.80 per month on average.

5. **Staff:** Response 13 states that “there is no agreement between the Foundation and FKEC for the Foundation’s facilities to be transferred to FKEC.” Please explain whether FKEC has any intent to form such agreement in the future.

Response: FKEC does not have any plans for the Foundation to transfer their facilities to FKEC, nor is there any obligation of the Foundation to do so.

6. **Staff:** Please provide a clear, legible Exhibit 1 to the First Amendment to the Territorial Agreement.

Response: This was satisfied by delivery of a more legible diagram with the service area change in red.

Respectfully submitted this _____ day of _____, 2023.
