Re: Docket No. 20230083-WS – Application for Increase in Water and Wastewater Rates in Orange County by Pluris Wedgefield, LLC.

Dear Mr. Teitzman:

On behalf of Pluris Wedgefield, LLC (“Pluris” or “Utility”) this letter is the response to Staff’s Third Data Request dated December 15, 2023.

1. Pluris indicated that private fire protection service is being provided to the Villas of Wedgefield HOA and the Orange County School Board Office. The utility also indicated that the rate charged to the private fire protection is the same rate that is charged for the general service class. Rule 25-30.465, Florida Administrative Code (F.A.C.) indicates that the private fire protection rate shall be one-twelfth the current base facility charge of the utility's meter sizes. Based on staff's research, the utility does not have an approved tariff for private fire protection. Please respond to the following questions related to private fire protection:

At the outset, any implication that Pluris improperly charged these two customers, is erroneous. Rule 25-30.465, F.A.C. does not automatically establish a fire protection rate. A fire protection rate must be approved by the Commission before it may be charged. As pointed out, Pluris does not have an approved fire protection rate, thus, the only rate classification applicable is the general service rate. Certainly the Staff is not implying that in absence of an approved fire protection rate that a meter and service for fire protection should be provided at no charge to the customer. If the Staff would like Pluris to establish a fire protection charge to be applied prospectively, that is agreeable to Pluris.

- a) Please indicate when the two customers began receiving service.

Response: Villas at Wedgefield HOA Fireline began service in February, 2014
Orange County Schools Fireline began service in August, 2016

- b) Please indicate whether the utility collected revenues for private fire protection during the test year. If the utility collected revenues for private fire protection, please indicate the total amount of revenues collected for the test year.

Response: Yes, revenues were collection for both customers during the test year.
Villas at Wedgefield HOA Fireline - \$361.76
Orange County Schools Fireline - \$33,307.24

- c) If the utility has collected revenues for private fire protection customers for years preceding the test year, please provide for each year the private fire protection revenues that were collected.

Response: See attached pdf. of charges from the date the customers began service through 2021.

2. The utility indicated that the field labor per hour performed by a utility representative is \$37.50. Please provide cost justification for this task.

Response: The amount of \$37.50 per hour was an estimate calculated using a \$30.00 average hourly rate and adding in a 25% factor for benefits and taxes. This amount of \$37.50 is lower than the annualized average 2022 labor cost including benefits and taxes which total \$39.43.

3. Pluris is requesting a meter tampering charge of \$200 as well as actual cost for repairs. The utility recently provided staff with a statement indicating Sarasota County's charge for meter tampering is the same amount requested by the utility. It has been Commission practice to establish a charge for the investigation of meter tampering and to allow actual cost for repairs consistent with Rule 25-30.460(d), F.A.C.. Pursuant to Section 367.091(6), Florida Statutes, the utility must provide cost justification for requested charges. Please provide cost justification for the utility's request mentioned above.

Response: Pluris had requested a meter tampering charge that matched one used by Sarasota County. In order to implement a rate that is in line with the Statutes as referenced above, please see the below table for cost justification of a meter tampering charge of \$60.00.

Clerical & Administrative Labor

Labor to document complaint and prepare work order \$ 13.14

Labor to Inspect Facilities

Labor to inspect meter and determine if repairs are necessary 39.43

Insurance Costs

Costs to insure personnel 0.70

Transportation Costs

Truck fuel and other costs 3.00

January 16, 2024

Page 3

Total Costs

56.27

Rounded Cost

\$ 60.00

Should you or Staff have any questions regarding this response please do not hesitate to contact me.

Very truly yours,

/s/ Martin S. Friedman
