Subject: FPSC - FPL Energy Services - Questions Regarding Application Financials
Importance: High

Good morning Inna,

FPL Energy Services, Inc.'s application for a certificate to provide telecommunication services in Florida is currently being reviewed by Florida Public Service Commission staff. After a recent meeting, we had a couple questions for the company in regards to the financials.

- Currently, the financials we are reviewing are the NEXTERA ENERGY, INC annual reports. Does FPL Energy Services have independent financials that are not consolidated with parent company financials that we could add to the docket file?

FPL Response: FPL Energy Services, LLC does not publish their own independent financials. There is only consolidated with parent company financials.

- In Page 69 of the 2023 NEXTERA ENERGY, INC annual report, paragraph 3, the report states: "The consolidated financial statements of NEE and FPL include the accounts of their respective controlled subsidiaries." Because the report never directly states FPL Energy Services by name, can you confirm that FPL Energy's financials are included Florida Power and Light's consolidated financials?

FPL Response: Confirmed. FPL Energy Services, LLC's financials are included in Florida Power & Light's consolidated financials.

Thank you for your anticipated response,
