CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioner Andrew Giles Fay,

As a Florida resident, I am concerned about the high electricity rates charged by big utility companies in our state. These companies rely too heavily on imported fossil fuels and unfairly block the expansion of low-cost, clean solar power to protect their profits.

I urge you to take action to support fair electricity rates for rooftop and community solar programs. The FPSC has long supported the utilities in raising rates, much to the detriment of Florida citizens. My rates have doubled in the last year alone. It appears that you never say no to rate increases which continue to bolster the bottom lines for corporations you oversee. By controlling and rolling back rate increases, you serve the people of Florida -- rather than a few companies backed by expensive lobbyists.

Sincerely,  
Ms. Joan Cochran  
4000 NW 24th Ter Boca Raton, FL 33431-5438 cochranjgl@yahoo.com

Dear Commissioner Andrew Giles Fay,

As a Florida resident, I am concerned about the high electricity rates charged by big utility companies in our state. These companies rely too heavily on imported fossil fuels and unfairly block the expansion of low-cost, clean solar power to protect their profits.

I urge you to take action to support fair electricity rates for rooftop and community solar programs. Solar energy reduces costs and provides savings that all Floridians should be able to access.

Big Utilities like FPL and Duke Energy must be held accountable. Hard-working Florida families should not have to foot the bill for multi-million dollar executive salaries. I ask you to pave the way for an equitable transition to 100% clean energy in our state.

Solar panels on roofs across Florida provide energy right where it's used. Community solar allows even renters and apartment dwellers to access affordable clean energy. With responsible leadership, we can ensure an energy future that is good for all Floridians.

I hope I can count on the Florida PSC to do the right thing. Please support fair rates for rooftop solar, community solar programs, and the growth of renewable energy in Florida.

Sincerely,

Dr. Kathleen SEWRIGHT
