Comments:

Do NOT allow TECO rate hikes! We're getting killed with insurance rates, inflation and property taxes

I am writing to express my deep concern regarding the recent proposal by TECO Electric to raise electricity costs. As a loyal customer and a member of the community, I believe such an increase would impose significant financial burdens on many households and businesses, especially in the current economic climate.

The prospect of higher electricity bills is alarming, particularly for individuals and families already struggling to make ends meet. With the cost of living steadily rising, any additional expenses, such as increased utility bills, could push many families over the edge financially. Moreover, small businesses, which are the backbone of our local economy, would also be adversely affected by this proposed hike in electricity costs.

Greetings,

My name is Thor Roach and I have lived in the Tampa Area for over 20 years. I am extremely displeased with the proposed 10% increase in cost per year for three years plan from TECO.

It is of my opinion TECO should focus on reducing their overhead and leaning out their organization before passing on the cost

Regards,  
Thor Roach

**Subject:** Teco price hikes

**CAUTION:** This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Please don't allow TECO to continue to raise their prices. People in Tampa are having trouble affording to live, and another price hikes will hurt the people struggling the most.
