Good afternoon,
I am writing regarding my opposition to the sewer project referenced in the above docket.

We own a home on Little Gasparilla Island. We have not asked for, nor see the need for, sewer service to the island.

We are concerned that Environmental Utilities LLC is a private, for-profit company with no experience with a wastewater utility.

The charges for installation being quoted to us are beyond our means, especially as we are still trying to recover from the devastation of Hurricane Ian.

The monthly charges seem to be incredibly high considering that we will still have to pay to have the solid waste holding tank cleaned out regularly.

Thank you for your consideration of the negative impact this project will have on all Islanders.
