**Cc:** Consumer Contact  
**Subject:** RE: RE. Docket #20240032-SU

Good Afternoon, Robert Anderson.

We will be placing your comments below in consumer correspondence in Docket No. 20240032, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

To whom it may concern,

My name is Captain Rob Anderson and I live on Palm Island/Don Pedro Island, along with many other residents who share my concerns. We oppose EU's application for wastewater service because we do not see the need for a central sewer system. We see no benefits or need for central sewer on our island, which has a low-density population and a pristine natural environment. The costs and risks of central sewer are too high for us and could harm the island's environment, affordability, and surrounding economy. We fear that a central sewer project could lead to more pollution, erosion, and loss of wildlife habitat. We also worry about the reliability and safety of the sewer system, especially during hurricanes and power outages. We urge you to

reject EU's application and respect our wishes to preserve our island's character and quality of life. Please do not move forward with this project as the damage will outweigh any possible gain.

Thank you for your consideration and please feel free to contact me if you have any questions or comments.

Captain Rob Anderson
