Good morning John Day,

We will be placing your comments below in consumer correspondence in Docket No. 20240032, and forwarding them to the Office of Consumer Assistance and Outreach.

Best regards,

Charlie Smith II

Dear Sir/Madam,

My personal perspective as a concerned homeowner of Little Gasparilla Island and environmental proponent is that the proposed wastewater service will have a devastating impact on the island and islanders. The service proposal has not demonstrated evidence to be better for the environment or residents/owners. It is, however, beneficial for those who stand to profit from the installation and forced hook up for ongoing service. This is an untenable situation. I can't fathom how the installation of such a system wouldn't create massive upheaval to the landscape, not to mention at a high cost to all owners. There seems to be little to no advantage of this project and it represents a major can-of-worms with potential problems in my mind. PLEASE deny EU's application for wastewater service.

Thank you!

John Day
