To Whom It May Concern,

We are, and have been, property owners at 9810 & 9814 Little Gasparilla Island for over 30 years. We are writing to express our concerns regarding the low pressure central sewer system proposed by EU, LLC. Our primary concern is whether EU has the expertise to construct and adequately maintain the system. To our knowledge, EU has not done this type of project before. Constructing anything on a barrier island is met with unique challenges that require experience and expertise to address obstacles when they arise. Another major concern is the financial aspect. Will homeowners be required to pay a large sum of money up front without any guarantee that this system will be completed in a timely manner or completed at all? Who will maintain the system and provide service if EU becomes insolvent? We also are puzzled by the lack of information provided

by EU. As homeowners, we have never received any communication regarding the plans or an attempt to explain why this would be beneficial to Little Gasparilla Island.

We are not opposed to a central sewer system on LGI, but do not think EU, LLC has the expertise to provide this service in a unique environment. **We are formally requesting that PSC deny EU's application to provide wastewater service on Little Gasparilla Island.**
