Please deny PSC EU application for waste treatment.  
We live in Colony Don Pedro , unit 1 on Gulf Blvd. , Palm Island.

We do not want a waste treatment facility installed on our island as the septic system works very well here. The company wishing to install the waste treatment plant is a for profit company that would take extreme measures to charge everyone much more than what we would gain from their services, with many problems arising if the island would loose power from powerful storms like we had with Irma.

Please deny PSC the EU application for waste treatment as our system works well and we cannot afford the huge cost of that transfer.
