Dear PSC Member,

As a concerned Duke Energy customer [and AARP member in Florida], I am writing to express my opposition to Duke Energy's proposed rate increase.

I urge you to carefully consider the impact of a rate increase on Florida residents, particularly the most vulnerable among us. With the rising costs of living, including healthcare and housing, a hike in utility rates would decrease the quality of life of many.

I ask that you prioritize the interests of consumers and reject Duke Energy's proposed increase to the return on equity and fixed customer charge. This is a profit margin that customers should not have to pay for with a price increase. Now more than ever, it is crucial

to ensure that essential services remain affordable and accessible to all Floridians.

Thank you for your careful consideration to this matter.

Sincerely,

Jim Marmorstone
