to allowing Duke anymore increases!! We already pay one of the highest electric rates in the country and now they want more?? ENOUGH!! As a senior on a fixed income, I absolutely object to this corporate greed!! It's bad enough they have a monopoly in this area as we have no alternative to them! You cannot allow them to stuff their pockets at the expense of citizens!!

Please reject the increased amount being asked for by Duke Electric. Enough is enough. Im on a fixed income as sn elderly and disabled Floridian. No more lining the pockets of the group profiting from this company. We are suffering from the rates as they stand now.

We cannot afford another increase . Is this really necessary . The State of Florida is allowing all companies and utilities to rape its residents to the point they are homeless . This is is beautiful place to live but has become unaffordable for many loyal citizens Sent from my iPhone

Good Evening,

What is going on with the cost of using your electric? My bills were never this high in 20 years plus. My family, friends and neighbors are saying the same thing and we are disgusted with the rising from Duke Energy. We are all barely living week to week and some of us can't even do that, yet you all decide to raise the price of the electric, and do whatever it is you want to do even upping the tax rate. This should not be allowed and we are being raped by your company. Who allows you to do this, and what is the problem that you have to do this? You don't make enough money yet, nope, I would never fall for that one. We are all sick of Duke Energy and the rising costs they are slapping on our bills Every month. This is a note or a notice of protest of you raising electric costs. We can't get America back with Duke Energy or all the other companies that are doing the same thing to just work in class people. And for people like myself and my husband who are just on Social Security , we don't get cost-of-living raises for things like electric bills, going up etc. etc. etc. I protest everything that Duke Energy is trying to do.

Carole

Subject: PROPOSED RATE HIKES

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I think your rate hikes are WAY out reason for those of us dealing with the ever increasing price increases. Duke needs to balance what we are charged with your ever expanding desire to increase our cost. Put more on the corporate giants that you keep protecting at our expense.

You are supposed to represent the people not the power companies.

Jim Fitton

We oppose this increase-- how can people on fixed incomes absorb anymore than we already have-- you are driving us all out of -Florida-- these rate increases are also out of line compared to national averages-- enough is enough!!! Mike Schniepp Sent from my iPhone

COMPLAINT INFORMATION

Complaint: Improper Billing against Duke Energy Florida, LLC d/b/a Duke Energy

Details:

Duke Energy wants to increase our rates over the next 3 years! My bill has doubled! I live in an energy efficient building with triple pane windows.LED lighting!! They are making lots of \$\$\$\$ and don't need to charge us more !!

Please don't let Duke Energy get their proposed increases. Costs are already too high and unwarranted to justify higher profits. It's a travesty to fixed income homeowners being forced to pay higher rates for their services. Please stop Duke Energy now!

Thank you,
Ann Marie Drella

Subject: Duke Energy Bill Increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hi -

Is Duke Energy really trying to increase our bills again? If so, how is this fair? We already pay a lot of electricity and now we may another increase? I just doing understand what's happening and why?!
The increase in rent with no control or cap and now increase on utilities is horrible and is only hurting us and our families!!

My rent went from \$1070 a month to \$2407 a month. I've been at the same residence for over 14yrs.

This is a great way to get people to move out of Florida!!

There's no increase in pay but increase in the cost of living, cost of utilities, cost of food...It's scary and stressing everyone out.

If the increase happens with Duke - y'all will force me to have to leave Florida because the struggle is real now, never mind anymore increases.

It's sad, we do things right, work and we don't get help with food or insurance. But if we didn't work we could get a lot of help. It just makes no sense.

Thanks,

Subject: Opposition Of Rate Increase Proposed By Duke Electric

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I am writing in opposition to the referenced rate increase of 25%, proposed by Duke Energy. PLEASE, have a heart that pumps compassion in lieu of corporate greed. DO NOT approve the increase and give the citizens of Florida a monetary break. Many seniors like myself are heading towards financial peril.

Thank you,
