I'm opposing this. Lived in St Petersburg over twenty years. Retired. Tired of all the rate hikes...do you realize how hard it is to make a living now? How hard it is for good citizens to live and pay bills?

I am writing to object the proposed rate increase. Last summer alone my bill was over 600 a month for a 1465 sf home. This is insane. I keep my home at 78 during the day and 73 at night. Neither are actually comfortable temperatures to be in. I use power sparingly as it is only 2 people in the home. How can a family afford this?

Please reject this increase. They need to offer better power savings programs. What they currently offer does nothing. I have it and I get less than 9 dollars a month credit.

Thank you for your time!

Please please don't increase the electricity the amount you are asking for. The amount is going to make us older people loose our homes. Either all the other increases we can't afford this amounts of increased bills.

Hello,

I am just a concerned citizen expressing my concern over this astronomical rate hike being proposed. We are all struggling to even find housing so this must be stopped. The elderly are at risk especially. Please consider all Floridians when making these decisions. We are just now recovering from the pandemic. We all need help now and this isn't the way.

Sincerely a concerned Floridian

I'm sending this email in hopes to be counted against Duke energy and their hike in payments. Please don't allow them to do this. it is so hard to pay this particular utility every year especially at this time of year. My daughter and her husband have four kids, they really struggle to keep a roof over their head also,. It takes so long for them to even get help with what little resources there are. So I'm sending this email to fight against this payment hike, and that the people can't afford to pay the price of it.

Sincerely

Patty Holland"
