Hello Dan,

For an example see: **1445959C**

Once you have entered the files in CATs, please FORWARD the email to John and state "Please forward to Clerk's office". John will send you an email back. Once you receive the email back from John, please place John's response on CATs.

Thanks

Consina

Subject: Duke Energy price increase proposal

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

We believe that Duke Energy's price increase should be rejected. Their rates are already too high. It is getting too expensive to live in Florida on a fixed income currently!

Subject: Electric Bill increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Please don't increase my electric bill. My pay is already stretched thin. What can I give up to afford higher bills? Groceries? You're killing us seniors on fixed incomes.

Sincerely,

Barbara Pothier

Subject: Duke fee increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

As one of Florida's senior citizens surviving on only my monthly Social Security check, I'm urging the State to take the rising cost for housing, food, transportation, insurance, etc. into consideration before allowing Duke to increase their already generous earnings and adding more financial burden to a population already struggling to survive.

Please act now to help us remain independent and deny Duke this increase in fees.

Thank you

Please don't raise our rates in Florida, and please stop using my money for your political gains. No PAC funds, no political donations!

To Whom it May Concern,

As a Floridian who is living on a fixed income, the continuing increase in everyday necessities is becoming an increasing hardship.

To allow a utility company to increase our rates in an effort to increase their profits is detrimental and irresponsible to those of us who do our best to support Florida.

PLEASE do not allow Duke Energy to increase their rates.

Sincerely,

Deborah Lohse

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

To whom it may concern,

The next proposed Duke Rate hike for the state of Florida is out of line with the current economic climate. Not only are they pushing profits above national average, they are penalizing solar users and thrifty consumers by increasing their minimum billed amount. This is has gotten ridiculous. Please do not allow this to continue.

Thanks,
Joyie Hilker

Please do something about the cost of Power it is staggering how they are increasing cost so much. The monopoly that Duke has is a insult to all of us.
