Hello Henry

For an example see: **1445959C**

Once you have entered the files in CATs, please FORWARD the email to John and state "Please forward to Clerk's office". John will send you an email back. Once you receive the email back from John, please place John's response on CATs.

Thanks

Consina

I know you're just a rubber stamp for Duke Energy. But HOW can you justify allowing them to increase their prices to consumers EVERY YEAR, when in 2023 alone, they made \$19,381 BILLION in profits??? We struggle to pay our electric bill now. What will we have to give up next - our food? How can you justify that??

Please do NOT allow Duke Energy to raise their rates! We struggle now to pay our energy bill each month, and if it goes higher, are you okay with taking food out of our mouths? Because that will be the next thing we will have to sacrifice.

STOP RAISING PRICES! DUKE IS ALREADY TOO EXPENSIVE AS IS. WE'RE BARELY SURVIVING INSIDE ONE OF THE LARGEST RECESSION AND YOU WANT TO RAISE PRICES?! The people are fed up and we will fight back

I request that your commission does not provide Duke energy the extensive rate requests. Duke is merely providing shareholder value increases in these requests and not managing their responsibilities to the utility's clients and customers

Stop the insanity. Raising the cost of power is not acceptable as we are paying premium now.

Please do not allow Duke Energy raise their rates. We are struggling to pay our monthly bills. They are seeking approval for an \$820 million increase from the Florida Public Service Commission (PSC). Here is what Duke is asking: Raise rates by 27% over the next three years, this is a \$16.48 per month increase in 2025 alone. Increase their guaranteed profit (return on equity) to 11.5%, well above the national average of 9.71%. Add \$2.56 more to the \$30 per month fixed customer charge, which is unrelated to electric usage.

Comments:

I understand that Duke Energy has requested a rate increase of \$800 million and a guaranteed priority rate that is much higher than the private company I work for. My electric bill with Duke in Pinellas county already averages \$600 per month for a 1312 square foot house. It's outrageously more expensive per KWH than I have ever paid elsewhere. I'm a capitalist and believe companies need to be profitable but I'm not sure why they need as much profit as they are requesting. Maybe an audit of how they are compensating their executives and leadership would show why they need this much of an increase. I believe they should have to show that very penny they spend and make and then they can ask for an appropriate increase. In addition to asking for the increase and already being the most expensive I have ever purchased, their level of investment in our infrastructure does not support the nrequest. Each time we have a 30 mph wind we have outages. They do a very poor job keeping limbs off their lines and in the last two hurricanes when we lost power we were.off for 1.5 and 2 days. That says to me they need to harden their infrastructure if they won't to maintain the contract. Maybe it's time to seek others as competition. Although every attempt at deregulation just seems to add more regulation and the incumbent makes even more money. We have no access to natural gas which would offer us some alternatives so we are truly at your mercy to keep their rates from increasing.

Florida residents are SUFFERING over the prospect of another Duke electric rate increase. Please do not approve this highway robbery rate hike. This is the very last thing anyone needs after so much inflation. Just say no!
