Comments:

How can you even consider giving duke energy an additional profit allowance. They are already doing very well. We, the customers,, are having to cut back on everything but they get to keep on raising rates? It is outrageous. Show us you work for the PUBLIC that is in your title.

Subject: proposed Duke Energy rate increases

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I am writing in response to Duke Energy's proposed rate hikes.
They are seeking approval for an $820 million increase from the Florida Public Service Commission (PSC). Here is what Duke is asking: Raise rates by 27% over the next three years, this is a $16.48 per month increase in 2025 alone. Increase their guaranteed profit (return on equity) to 11.5%, well above the national average of 9.71%. Add $2.56 more to the $30 per month fixed customer charge, which is unrelated to electric usage. This rate hike will burden households already struggling with rising costs. I urge you to DENY or significantly reduce their proposed hike.

Please no more rate increases! Everyone is struggling as it is. Why should Duke Energy be guaranteed profit above the national average!
Thank you
