PLEASE, Do NOT allow Duke to raise our Rates. Floridians are being hit hard enough by Insurance raising rates and other inflation. Along with new condo rules! My HOA has doubled in 4 yrs ive owned in FL. I am on a fixed income and have sold personal items to make ends meet. Sent from my iPhone

My submission is in regards to Duke's proposed rate increases which are totally out of line with industry standards Raise rates by 27% over the next three years, this is a \$16.48 per month increase in 2025 alone. Increase their guaranteed profit (return on equity) to 11.5%, well above the national average of 9.71%. Add \$2.56 more to the \$30 per month fixed customer charge, which is unrelated to electric usage. This rate hike will burden households already struggling with rising costs. Please give these rate increases the diligence that due and if they are reasonable
