Please do not allow Duke to raise our rates. We are struggling already to pay these high bills. Check their profits before agreeing to make them even richer.

Thank you

Please let it be known that we are totally against the rate hike with Duke energy that they are proposing. As everything keeps going up some people are going under! We cannot handle this increase it is simply just too much. It's bad enough people have to drop their homeowners insurance. What's next having no electricity?!

Comments:

Dear Florida Public Service Commission, I am writing to object to Duke Energy's proposed increase to energy rates which threatens to affect the energy cost for all Florida residents. Duke Energy is seeking approval for an \$820 million increase from the Florida Public Service Commission. To raise rates by 27% over the next three years, this is a \$16.48 per month increase in 2025 alone. To increase their guaranteed profit (return on equity) to 11.5%, well above the national average of 9.71%. Adding \$2.56 more to the \$30 per month fixed customer charge, which is unrelated to electric usage. Duke Energy wants to raise Florida residents monthly electric cost. This rate hike will burden households already struggling with rising costs. Florida residents can't afford higher electric bills!
