Subject: Raising electric bill

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Hello my name is Lawrence Bordonaro. I'm a disabled veteran and I'd like to make a comment about raising our electric bills. First off electric bills are too high to begin with we pay more than most people in other states. This proposal to raise our electric bill needs to stop. My vote on it is no. You use our taxpayers dollars to buy solar and everything else. Our paychecks have not raised but everyone wants to raise our rent, our taxes, Our phone bills, the food we eat, gas prices, water bills, and even the tips we give for services. Raise in our electric bills again puts a strain on everyone especially since our paychecks have not gone up. They just raised the minimum wage which was stupid because now everyone like you want to raise our electric bill and other services which causes strain on the elderly and the citizens of Tampa Electric we don't have the money you're pushing the little guy out of Florida for the millionaires well you're running out of those too! As a disabled veteran of the United States Army I say no more! Even my disability hasn't gone up this is become outrageous and a strain on my livelihood. How about we take from the tables of the rich like Tampa Electric you're not here to make a profit off the people you are here to provide a service. You already take too much money. All you commissioners are voted in if you raise I will do my best part of informing how to make sure we don't elect you in the near future I will also post this at the nearest VA's. And if you think the people don't matter and what we say a vote will show you! Stop this nonsense and help out your fellow citizens by voting no on this proposed raise. Again!
Lawrence Bordonaro
