CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Please pass this email along to those who make the decision on rate increases.

I am very much opposed to the proposed rate increase for the 2025 budget by Duke Energy. I think their profit margins are just fine as they are and they are doing a fine job working with their current rates.

Please don't let them jump on the bandwagon of inflation. Some things don't need rate increases.

Regards

Tim
