To whom it may concern:

We are customers of Duke energy and as retired people, the energy payment is already a big burden in our monthly income. Hearing that Duke Energy wants to increase the rates even though they already make high profits and have one of the highest rates in the USA is totally unfair to all Floridians. Living in Florida with a fixed budget is becoming very hard, see how cars and homeowners insurance have doubled, just to give another example. We hope that your committee thinks more about the people's wellbeing and opposes this unthinkable and selfish proposal of Duke Energy. Please answer NO to Duke Energy rate hikes.

William and Carolina Fallon.
