Subject: Rate Increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Because Duke Energy already showed a profit of a 3.59% increase from 2022 and an a 5.94% increase from 2021, there should be no approval for a customer rate increase. Let's start putting the consumers' interests first in this state. Duke is a monopoly, and its customers cannot choose an alternative company.
