**Subject:** Docket 20240032SU Objection

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioners,

I am writing to express my strong opposition to the Environmental Utilities Inc. application with the PSC under Docket No. 20240031-SU, which proposes the installation of sewer lines on my property on Little Gasparilla Island. I have serious reservations about the potential impact of sewer lines on my land and the island's environment.

During Hurricane Ian cleanup, I experienced firsthand the damage caused by heavy equipment on the island. FPL truck tires sunk into the ground, creating large sunken tracks and exposing water lines on the surface. My neighbor had his water line exposed and broken at least twice during this time. This incident demonstrates the vulnerability of our infrastructure to heavy equipment damage.

I am extremely concerned about the potential for sewer line damage and the consequences for my property and the island's environment. As the owner of a property spanning the entire width of

the island, I am NOT willing to grant an easement for the installation of sewer lines on my property, as I believe it would pose an unacceptable risk.

I kindly request that my objections be considered and that I be listed as an "interested person" on the docket. I believe it is crucial for my concerns to be heard and addressed during the review process.

Thank you for your attention to this matter.

Warm Regards,

Beverly Williams

9802 Little Gasparilla Island
