Please, I BEG of you not to allow Duke Energy to increase our rates again! I am slowly being priced out of my home after 30+ years. Unhoused is up 70% due to this very same thing. Duke is already the 5th highest in the nation among utilities with more than 100,000 ratepayers. Duke already makes more than 10% profit, yet they want to increase the average monthly bill by about \$24 with this request.along with all the other rising inflation bills, we cannot afford this. ESPECIALLY those of us on a fixed income. When I retired 2 years ago my salary to my social security income went down 47 THOUSAND dollars. I simply cannot afford yet another rate hike from a company who is already making a 10% profit. Thank you for listening.
