Duke Energy is a monopoly. I am a Duke customer because I have no choice. Florida citizens rely on the Florida Public Service Commission to prevent Florida rate payers from be exploited by a regulated monopoly from another state. This is an energy provider that is doing everything possible to prevent or limit homeowners using god given solar energy to help offset the high cost of electricity and reduce our carbon footprint. It is no surprise that Duke opposes hearing from rate payers. Duke has demonstrated that it only listens to and answers to their corporate masters in North Carolina and cares little about the state of Florida and its people. I implore you to limit the proposed Duke rate increase.
