To whom it may concern,  
Please do not approve the rate hikes requested by Duke Power. I checked the data on your PSC website. It shows that Duke already has the highest customer bills in Florida. Our power bills include a request for donations to help pay for those that can not afford power. Duke knows that their rates are getting too expensive for the working poor!  
Duke is also asking for a ROE that is 1% higher than the power utility average ROE. Duke is already a highly recommended stock and needs no help from higher power bills.
