Dear PSC Member,

As a concerned Duke Energy customer [and AARP member in Florida], I am writing to express my opposition to Duke Energy's proposed rate increase. As it is, my electric costs last year almost doubled!!! We do not need another rate increase! I am going to have to sell my home because I will not be able to afford the electrical cost if these rate increases keep being passed.

I urge you to carefully consider the impact of a rate increase on Florida residents, particularly the most vulnerable among us. With the rising costs of living, including healthcare and housing, a hike in utility rates would decrease our quality of life.

I ask that you prioritize the interests of consumers over corporate greed and reject Duke

Energy's proposed increase to the return on equity and fixed customer charge. This is pure profit that customers should not have to pay for. Now more than ever, it is crucial to ensure that essential services remain affordable and accessible to all Floridians.

Thank you for your careful consideration to this matter.

Sincerely,

Annette Brandt
