Dear PSC Member,

As a concerned Duke Energy customer, I am writing to express my opposition to Duke Energy's proposed rate increase. Rates have been out of control lately and propelled us from one of the more reasonable states to live in to one of the top most costly. Between insurance and utilities pricing is out of control in Florida and going to drive the young and old out of the state.

Additionally the state of Florida has done little to help consumers influence their electricity usage unlike blue states such as Mass. Electric vehicle adoption is growing demand, we live in the sunshine state with abundant solar capacity, yet we're paying more than ever per unit. Makes no sense.

Thank you for your careful consideration to this matter.

Sincerely,

Tim Arnold
