Dear PSC Member,

As a concerned Duke Energy customer [and AARP member in Florida], I am writing to express my opposition to Duke Energy's proposed rate increase.

Duke energy

Where are the Duke Energy leaders and heroes that will reduce the budget or commit to a zero based budget (no increases....).

Imagine what that money could do in this community for;

- Americans struggling to afford rent, food, and electricity.
- Companies going out of business.

- Working poor people being forced to stand in line for the “privilege” of begging for a second job, wondering if they should sell their possessions to make ends meet.

If 50% of the people are making less than a living wage exactly what does success look like?

I urge you to carefully consider the impact of a rate increase on Florida residents, particularly the most vulnerable among us. With the rising costs of living, including healthcare and housing, a hike in utility rates would decrease our quality of life.

I ask that you prioritize the interests of consumers over corporate greed and reject Duke Energy's proposed increase to the return on equity and fixed customer charge. This is pure profit that customers should not have to pay for. Now more than ever, it is crucial to ensure that essential services remain affordable and accessible to all Floridians.

Thank you for your careful consideration to this matter.

Sincerely,

Christine Morrison
