Dear PSC Member,

As a concerned Duke Energy customer [and AARP member in Florida], I am writing to express my opposition to Duke Energy's proposed rate increase. I am a Vietnam Veteran, living on a very low income with Social Security. And still have a mortgage that's an ARM. My interests have raised my mortgage up almost \$100. dollars in the past year per month. As well as everything going up in price. My income has not changed hardly at all. I'm drowning in costs of living and at age 73 it is just about impossible to go back to work. I don't have the option of a cushy job like a Senator or congressman.

I urge you to carefully consider the impact of a rate increase on Florida residents, particularly the most vulnerable among us. With the rising costs of living, including healthcare and housing, a hike in utility rates would decrease our quality of life.

I ask that you prioritize the interests of consumers over corporate greed and reject Duke Energy's proposed increase to the return on equity and fixed customer charge. This is pure profit that customers should not have to pay for. Now more than ever, it is crucial to ensure that essential services remain affordable and accessible to all Floridians.

Thank you for your careful consideration to this matter.

Sincerely,

Russ Norden
